DEMOLITION AND SORTING GRAB

## **SUPPLY PERIOD OF SPARE PARTS**

Thank you for purchasing a Furukawa Rock Drill product.

Please note that the supply of spare parts will be assured for 10 years after the termination of production. Although the supply of spare parts is terminated in principle at the maturity of the subject supply period, we may be able to supply them upon request even after the expiration of the supply period on condition that the delivery date and price are subject to negotiation.

Even if it is within the supply period, however, the delivery date, price, etc. may be subject to negotiation when it is difficult to keep stocks should the purchased parts, such as electronic parts, etc., be not available because the manufacturer does not produce them anymore.

If you have any questions about any particular model subject to the warranty as stated above and the time limit of spare parts supply, please contact your nearest FRD Europe B.V. distributor.

# USING THE PARTS LIST

1. This parts list describes the components of a demolition and sorting grab.
2. When ordering a part, refer to the illustrations and lists in this parts list and then inform the FRD Europe B.V. distributor in your area of the following items.
  - (1) Model name
  - (2) Serial No.
  - (3) Part No.
  - (4) Part name
  - (5) Quantity
3. Use "Genuine Furukawa Rock Drill Parts" when replacing all parts.
4. The illustrations in this parts list show the positions and shapes of the parts so that a user can order a part without any problem.

Do not repair a demolition and sorting grab by using this parts list.
5. The parts in this list are subject to change for improvement without notice on the part of the manufacturer.

## How to use the parts list

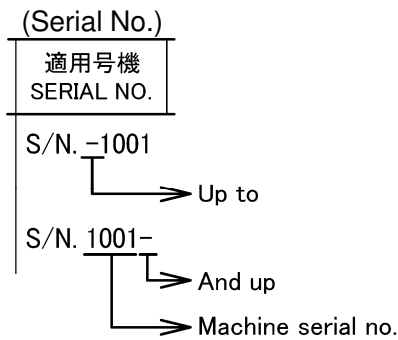

### (1) Illustration

- ① Group Name..... It is the same as the Group Name on the CONTENTS.
- ② Fig. No..... It shows the illustration number and corresponds to Fig. No. of the parts breakdown.
- ③ Item ..... It corresponds to Item on the parts breakdown.
- ④ Group Name..... It shows the group name in which the parts breakdown is covered on a separate page in this parts list.
- ⑤ Page..... The left side of “—” (hyphen) shows consecutive numbers in each unit. The right side shows consecutive numbers of drawings/lists in each unit.

### (2) Parts Breakdown

- ① Item ..... It is shown by two figures and corresponds to the Item in the illustration. Item nos. are not always in sequence.  
When a part has been changed in design and then the part number or quantity has been changed, a sub-number is added to Item in order to show the order of change.
- ② Part No. .... (a) Part number is shown.  
(b) Indication of a no-service part  
With parts which cannot be serviced as a single part, only the illustrations and part names are given and the mark \*\* is shown in the part number column. These parts are serviced as an assembly, a kit or a set.
- ③ Part Name ..... It shows the description of a part. When the following marks are put before the part name.  
No mark ..... Represents a single part or an assembly component.  
\* ..... Represents a part or an assembled part of the assembly component. It is listed out after the assembly name.  
\*\* ..... Represents a part of the assembled part of the assembly component.
- ④ Q' ty ..... As a rule, this column indicates the quantity of a part required for one crusher. In case of a part of an assembly component, however, it indicates the quantity of the part required for one assembly component. In this column, the following mark is also used besides the Arabic numerals to indicate the quantity of parts.  
( ) Parenthesis..... This part is not included in an assembly. ••• Option etc.  
AR ..... As required.

⑤ Serial No. ....Serial No. in which this part is used is as shown in the following example:

⑥ Remarks .....The marks and part numbers in the Remarks column are described below.

A..... Replaceable common part and following part no.

B..... Represents that this part is not supplied as a single part; however, it is supplied as a set.

C Represents that this part is not supplied as a single part.

When an assembly including this part is supplied, the parts after this mark are supplied. When no parts are given after this mark, the components of this part are supplied.

D ..... This part is no longer manufactured due to an incorrect part number or a change and supplying this part is discontinued. When a substitute can be supplied, the part after this mark is supplied.

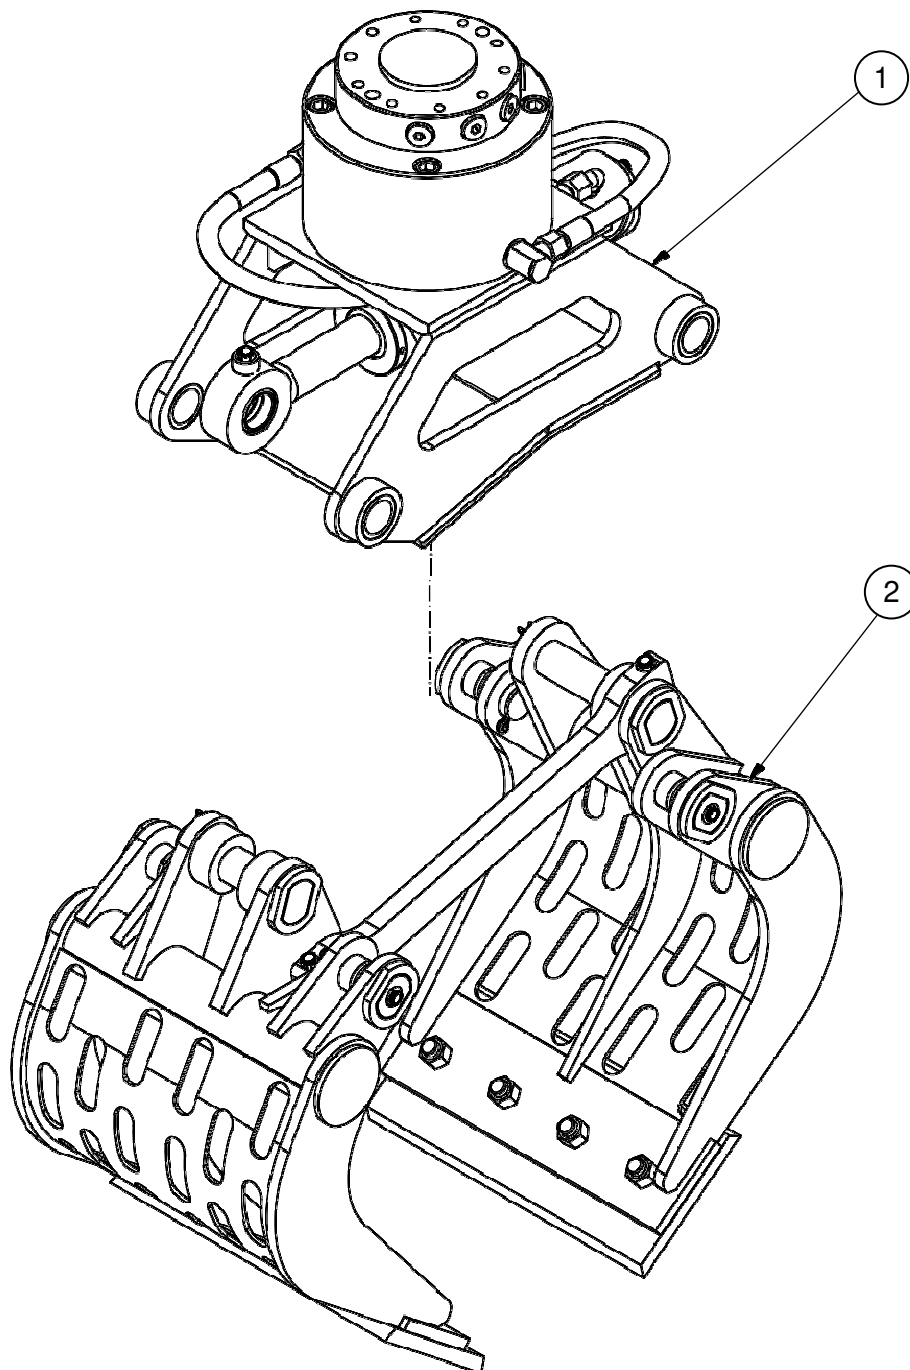

⑦ Page.....The left side of “—” (hyphen) shows consecutive numbers in each unit.  
The right side shows consecutive numbers of drawings/lists in each unit.
